Note

- The packages are for Dynamics 365 Finance and Operations Platform Updates PU60, PU61 and PU62.
- Microsoft recommends that you use an ISV/LAC-package matching the build or PU because it could lower the memory usage. However, all packages contain the same code and are compatible with different versions.
- Deployments or installations of Lasernet Connector packages are forward compatible; for example, it is not possible to deploy or install a Lasernet Connector package for PU55 when using Lasernet FO Connector PU49 or PU50.
