I am just about to migrate a Lasernet 9 config to Lasernet 10 and I would like to compare my migrated configuration with a neutral recent Lasernet 10 default configuration (basic workflows, basic default forms etc.) I do not find a default LN10 config at your download section or at the KB. I would highly appreciate to receive such a default config. May I ask you to provide one? Thank you very much in advance! Kind Regards Stephan Rogusch (GWS)
